

# Password Reset & Account Security

IT Security | Customer & Employee Reference

This document provides guidelines and procedures for resetting passwords and maintaining account security across SmartTech's digital platforms, including the SmartTech customer portal, SmartTech mobile app, and internal enterprise systems.

Protecting your account is a shared responsibility. Please follow the security best practices outlined in this guide to keep your account and personal data safe.

## 1. Password Reset — Customer Portal

---

### 1.1 Via Email (Recommended)

- Visit [www.smarttech.com/login](http://www.smarttech.com/login) and click 'Forgot Password?'
- Enter your registered email address and click 'Send Reset Link'.
- Check your inbox for an email from [noreply@smarttech.com](mailto:noreply@smarttech.com) (check spam/junk if not received).
- Click the secure reset link — it is valid for 15 minutes only.
- Enter your new password (see Section 3 for password requirements).
- Click 'Reset Password'. You will be automatically logged in.

### 1.2 Via Mobile Number

- On the Forgot Password page, select 'Use Mobile Number' instead.
- Enter your registered mobile number and complete the CAPTCHA.
- Enter the 6-digit OTP sent to your mobile. Valid for 10 minutes.
- Set your new password and confirm.

### 1.3 Via SmartTech App

- Open the SmartTech app and tap 'Sign In' → 'Forgot Password?'
- Choose Email or Mobile OTP verification.
- Follow on-screen prompts to reset your password.

## 2. Password Reset — Enterprise Systems

For SmartTech employees accessing internal systems (ERP, HRMS, CRM, etc.):

| System            | Reset Method                                        | Contact if Locked    |
|-------------------|-----------------------------------------------------|----------------------|
| Windows Login     | Ctrl+Alt+Del → Reset Password (on-network)          | IT Helpdesk Ext. 100 |
| SmartTech CRM     | CRM login page → Forgot Password                    | IT Helpdesk Ext. 100 |
| VPN Access        | Submit IT ticket via intranet                       | IT Helpdesk Ext. 100 |
| Email (Outlook)   | Self-service portal:<br>it.smarttech.internal/reset | IT Helpdesk Ext. 100 |
| SmartTech Academy | Academy login → Forgot Password                     | L&D; Team Ext. 250   |

*Note: Employee accounts are locked after 5 consecutive failed login attempts. Contact IT Helpdesk to unlock.*

## 3. Password Requirements

All SmartTech account passwords must meet the following criteria:

- Minimum 12 characters in length.
- At least one uppercase letter (A–Z).
- At least one lowercase letter (a–z).
- At least one number (0–9).
- At least one special character (e.g. @, #, \$, !, %).
- Must not contain your name, email address, or username.
- Must not be one of your last 10 passwords.
- Passwords expire every 90 days for employee accounts.

## 4. Two-Factor Authentication (2FA)

---

SmartTech strongly recommends enabling Two-Factor Authentication on your account for enhanced security. 2FA is mandatory for all employee accounts.

### 4.1 Setting Up 2FA

- Log in to your SmartTech account and go to Security Settings.
- Under 'Two-Factor Authentication', click 'Enable 2FA'.
- Choose your preferred 2FA method: Authenticator App (recommended), SMS OTP, or Email OTP.
- For Authenticator App: scan the QR code using Google Authenticator, Microsoft Authenticator, or SmartTech Authenticator app.
- Enter the 6-digit code to verify and save.
- Store the backup recovery codes in a safe location.

### 4.2 2FA Recovery

If you lose access to your 2FA device, use your saved backup recovery codes on the login page. If backup codes are unavailable, contact support with identity verification documents for manual account recovery (processing time: 2–3 business days).

## 5. Account Security Best Practices

---

- Never share your password with anyone, including SmartTech support staff (we will never ask).
- Use a unique password for your SmartTech account — do not reuse passwords from other sites.
- Use a reputable password manager to generate and store strong passwords.
- Be wary of phishing emails — SmartTech will never ask for your password via email.
- Log out of your account on shared or public devices.
- Monitor your account's login history (Security Settings → Login Activity).
- Report suspicious account activity immediately to [security@smarttech.com](mailto:security@smarttech.com).

## 6. Reporting a Security Incident

---

If you believe your SmartTech account has been compromised:

- Change your password immediately.
- Revoke all active sessions: Security Settings → Active Sessions → Sign Out All.
- Contact our Security Response Team: [security@smarttech.com](mailto:security@smarttech.com) or 1800-SMART-SEC.
- Employees must additionally file an IT Security Incident Report within 1 hour via the intranet.
